Relocating to Charlotte / Raleigh, NC — Available Immediately

June 15, 2026

Hiring Manager
Cardinal Health
Raleigh, NC

Dear Hiring Manager,

The Extended Care territory at Cardinal Health is a consultative sales role that lives or dies on account relationships, disciplined field coverage, and the ability to grow revenue inside a defined geography over time. I have been doing exactly that for four years, managing multimillion-dollar territories for companies that demand consistent performance, and I am ready to bring that track record to Raleigh.

At KraftMaid Cabinetry, I held full revenue responsibility for a \$5.47M portfolio across 23 accounts. I managed pricing conversations, handled service escalations, delivered structured product education, and grew market share during an industry-wide 8% contraction by deepening account partnerships and differentiating through service quality. I built my territory plan inside Salesforce CRM and Power BI, tracking account-level KPIs and optimizing my field time toward the highest-opportunity targets. The result: 145% of monthly quota in January 2026.

What draws me to Cardinal Health's Extended Care business specifically is the account complexity. Selling to long-term care facilities, home health agencies, and extended care providers requires the same multi-stakeholder navigation I practiced daily with dealer principals, store managers, and buying groups — but with a mission that matters more. I am motivated by that, and I will bring the same consultative rigor I applied in consumer goods to understanding the purchasing dynamics and clinical needs of Cardinal's Extended Care customer base.

I am relocating to Raleigh on a fixed timeline and available immediately. I would welcome the opportunity to discuss the territory and how my background maps to what you need.

Sincerely,
Collin Celic
