Relocating to Charlotte / Raleigh, NC — Available Immediately

June 15, 2026

Hiring Manager
Insulet Corporation
Raleigh, NC

Dear Hiring Manager,

A \$5.47M territory plan built on Salesforce, structured account reviews, and 145% monthly quota attainment — that is the foundation I am bringing to the Territory Manager role at Insulet in Raleigh West. Insulet's Omnipod business demands a rep who can develop and execute a disciplined territory strategy, build trusted clinical partnerships, and sustain long-term account growth. Those are competencies I have been developing for four years.

At KraftMaid Cabinetry, I was the sole field representative responsible for 23 high-volume accounts and \$5.47M in annual revenue. I built a full territory business plan, managed it through Salesforce CRM and Power BI dashboards, and grew market share during an industry-wide 8% downturn by staying closer to my accounts than anyone else and delivering genuine value at every visit. I achieved 145% of monthly quota in January 2026. At TTI before that, I managed a \$4.06M territory for Milwaukee Tool, Ryobi, and Ridgid — growing revenue 5.15% year-over-year through structured daily field activity and proactive stakeholder education.

I recognize that moving into diabetes device sales from consumer goods requires me to learn a new clinical environment. I take that seriously and I am prepared to dedicate the time to understand the Omnipod technology, the patient journey, and the healthcare decision-making process in endocrinology and primary care. The core selling skills — territory planning, account strategy, consultative relationship building, and quota performance — are already in place.

I am relocating to Raleigh immediately, with no constraints on start date. I would welcome the chance to discuss the Raleigh West territory and what a strong first year looks like for you.

Sincerely,
Collin Celic
