Relocating to Charlotte / Raleigh, NC — Available Immediately

June 15, 2026

Hiring Manager
Stryker — Neurovascular
Charlotte, NC

Dear Hiring Manager,

Growing market share in a declining market while hitting 145% of monthly quota is the kind of result that does not happen by accident — it comes from knowing how to manage a territory at the account level, earn trust with demanding buyers, and out-execute the competition in the field. That is the foundation I am bringing to Stryker's Associate Territory Manager role in Neurovascular Charlotte.

As Territory Manager at KraftMaid Cabinetry, I held full accountability for a \$5.47M annual portfolio across 23 accounts in greater Boston. I used Salesforce CRM and Power BI daily to prioritize field activity, track account-level KPIs, and identify growth opportunities. I delivered structured product demonstrations and business reviews across all 23 locations, built genuine advisory relationships with principal-level buyers, and grew market share while competitors retrenched. Before that, I managed a \$4.06M multi-brand TTI territory and drove 5.15% year-over-year revenue growth through relentless daily field prospecting and in-person selling.

Neurovascular is a sophisticated, clinically demanding product category, and I approach that honestly. I do not have a clinical background. What I bring is a field sales skill set that transfers directly: the ability to build trusted relationships with skeptical professional buyers, present complex products credibly and persuasively, manage a large territory through data-driven prioritization, and compete to win. I will put in the work to learn the clinical context because the product and the company are worth it.

I am relocating to Charlotte with no timeline constraints and am available to start immediately. I would appreciate the opportunity to discuss the ATM role and how my territory track record translates to what you need in this market.

Sincerely,
Collin Celic
